Subject: New comments for application NY/2025/0030/ENV
Date: 02 April 2025 14:59:05

New comments have been received for application NY/2025/0030/ENV from Mr Mark Hawes.

Comments:

I have lived in burniston for 23 years and object to the application. I was involved in the policing of protests at the kirbymisperton fracking site. The companies belief that they can operate 5.5 days a week is misguided. Without police support no worries will be able to enter the site. NYP have learnt from experience and are unlikely to commit large resources to the situation. Therefore the project will take a lot longer than planned. This will affect local villagers and tourists more than anticipated. Also who will pay if it goes wrong. The company records show a company 27 million in debt and not making any profit. It is the wrong place and the wrong time.
