New comments have been received for application NY/2025/0030/ENV from Mrs Melanie Clarke.

Comments:

1. It has been shown that fracking is not suitable in the UK.
2. The extraction of new fossil gas should not be carried out in a climate and nature emergency which was declared by the UK government in 2019.
3. This proposal will impact local residents in a harmful way in terms of noise, traffic and pollution.
