Subject: Objection to Fracking at Burniston
Date: 06 April 2025 17:28:10

Dear Sir/Madam,

I wish to register my objection to the extraction of methane (natural gas) at Burniston (NY/2025/0030/ENV) . The extraction will add yet more greenhouse gases by leakage and burning the methane as a fossil fuel and produce a risk of local earthquakes. Using another name for fracking should not be a way of getting around the moratorium.

Regards

Parish Councillor Michael E. Chaloner M.Sc.
