**Subject:** Objection to proposal for fracking site ---- NY/2025/0030/ENV refers  
**Date:** 06 April 2025 20:28:58

---

Dear sir or madam,

I wish to register my objection to the above proposal for the following reasons -

1. Tourism ... is one of the areas biggest economies , my wife and I have visited the Cleveland way and surrounding areas near to and including Burniston village and we loved the peace and quiet and surrounding countryside, this unwanted development is not going to attract people to visiting the area (which is an area of outstanding natural beauty nextdoor to a national park ) it's going to have the opposite effect.

2. Environment ... Earth tremors of 2.9 in 2011 at the Preston road fracking site Lancashire ( and a further 3 more in the same week ) caused the site to be closed. The tremors caused effects more than 5 miles away in Lytham, the same is highly likely to happen again in Burniston with already fragile cliffs and being above the peak fault line.

Potential water supply contamination by drilling through natural aquifers (there are many cases of contamination to aquifers, rivers and streams in Philadelphia USA) release of harmful chemicals.

Air pollution ....fumes from heavy goods vehicles, machinery and co2 sulphur dioxide and methane produced by the rig.

Light pollution...The site will have to be floodlit 24 hours per day and along with the noise can have adverse effects on owls and bats.

Property house prices.... The rig will be visible from miles away and will also be obvious on any environmental surveys undertaken on behalf of buyers ...owners would have to drastically reduce their prices to sell the property.

Increase in traffic pollution ...Hundreds of heavy duty vehicles will be needed and will have to negotiate narrow country roads causing noise pollution and carrying toxic chemicals a potential time bomb if there's an accident.

No reduction to gas prices ....Europa intend to sell the gas on the open market so it could be exported !! So whos the beneficiary ? could it be Europa and their shareholders I wonder.

It's not going to bring down gas bills.

Policing demonstrations ....cost to North Yorks police ..as Preston and Blackpool demonstrated fracking is really not wanted by a large percentage of people who are not going to be happy , a large part of which are willing to show this .

Yours faithfully
