Subject: NY/2025/0030/ENV - objection to the Europa Oil and Gas planning application
Date: 07 April 2025 17:22:32

Hello,

I would like to register my objection to the Europa Oil and Gas planning application.

As a regular visitor to the North Yorkshire coastal area I am deeply concerned that the coastal areas I love to explore will have views ruined by the tall and intrusive drilling rig, as well as damage caused to the wildlife and biodiversity through the vibrations from seismic testing and the pollution from the gas flares and machinery. The coastal areas surrounding Burniston are fragile and I am concerned that access to coastal areas will be impacted as a result of damage to cliffs through potential tremors. If this application is approved then tourism will be adversely impacted; why would I or the many tourists who come to this area for its beauty, want to visit an area that will be blighted by this development.

I hope the council will decide to turn down the application to preserve this wonderful coastal area.

Regards

Mrs J Mills
