Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Ms Jane Hodgson.

Comments:

We mess with the structure of our precious Earth at our peril. We do not need more lorries on our roads or pollution in the air we breathe. Any financial gain to the area will be at the cost of visitors who will not come back and local businesses which will suffer. The coast is special and should be left alone for people who live there or visit to enjoy and not be used for this purpose.
