**Categories:**

New comments have been received for application NY/2025/0030/ENV from Ms Michele Atkins.

**Comments:**

It has been pointed out by many that any gas found here would be sold on the European market so again no direct benefit to the local community or indeed the country. All I can see is destruction of the area, excessive wear and tear by HGVs on our local roads meaning higher council tax for the residents to pay for the repairs to the roads! I fail to see any community benefit.
