Subject: New comments for application NY/2025/0030/ENV

Categories:

New comments have been received for application NY/2025/0030/ENV from Ms. Amanda Talbot.

Comments:

Scarborough is a very special place with a long history and Fracking should not be a part of it. There is a lot of information already available about the damage to the environment and people it causes. I am not being dramatic or negative, only factual. The anticipated wealth will be as elusive as that promised about the North Sea oil. It is a short sighted money grab. Britain is an island with better and safer energy options. NO to fracking. I grew up near Scarborough and have seen it change over the decades. This is not a change it needs. Think better, do better.
