Subject: New comments for application NY/2025/0030/ENV

Categories:

New comments have been received for application NY/2025/0030/ENV from Mr. Arthur Louth.

Comments:

Re: Application Reference No: NY/2025/0030/ENV Europa Oil and Gas application for appraisal drilling at Burniston Mill Site

Dear Sirs

I am writing in connection with the above Planning Application made by Europa Oil and Gas for the construction, drilling and testing of this site to extract gas through a proppant squeeze process. Having considered this in detail I object for the following reasons:

1. Visual Amenity: The proposal will detract from the appearance of the area due to the 30 metres high drilling rig, the light pollution and gas flaring.
2. Traffic: The increased number of HGVs will be hazardous to vulnerable pedestrians including children and pensioners.
3. Geology: Due the geological fault surveys should be carried out to assess the impact of drilling in the area.
4. Industrial Process: The continuous noise and light pollution created from the drilling will disrupt the quiet enjoyment of the area.
5. Tourism: Numerous walking and cycling routes will be negatively impacted by the process of drilling for gas.

I object to this proposal.

These objections should carefully considered by the Planning Committee.

Yours faithfully

Mr. Arthur Louth
