Subject: New comments for application NY/2025/0030/ENV

Categories: [REDACTED]

New comments have been received for application NY/2025/0030/ENV from Mr Jacob Bland.

Comments:

Hello there, I'm Jacob a local to the area and a surfer who likes to surf around the burniston and Scarborough area. Bringing fracking is a terrible idea especially to the coast where people live and want to enjoy peace and quiet but that is going to be disrupted. So this is just a message to [REDACTED] off elsewhere please and thankyou
