Subject: New comments for application NY/2025/0030/ENV

Categories: ■

New comments have been received for application NY/2025/0030/ENV from Mrs Fiona Moss.

Comments:

I object to frackin being allowed in my area and all areas because it harms the environment, causes pollution, noisy, damages properties, poisons water and contaminates rivers and seas disrupts the community and increase in traffic also anti frackers will set up camp in the area until it is stopped
