Re: Planning Ref. no: NY/2025/0030/ENV  
Europa Oil and Gas application for appraisal drilling at Burniston Mill site

Dear Amy

I am writing in connection with the above planning application made by Europa Gas and Oil for the construction drilling and testing of this site to extract gas through a propant squeeze process.

Having considered this fully I am writing to object for the following reasons:

The village of Burniston is a quiet village on the outskirts of Scarborough and the road network to this site will not withstand the volume of heavy traffic which is proposed. Indeed, the roundabout closest to the site entrance is so small that it will be difficult for the vehicles to manoeuvre and cause traffic chaos at busy times.

This in turn will impact life in the village and the children and young people in the area by virtue of the reduced air quality and the increased danger from the traffic making it more difficult for them to get around independently.

I hope my concerns are fully taken into account by the Planning committee during your review process.

Yours sincerely
