Subject: New comments for application NY/2025/0030/ENV

Categories: ■

New comments have been received for application NY/2025/0030/ENV from Mrs Paula Penny.

Comments:

Firstly, it's concerning that the surrounding roads simply cannot handle the extra vehicles, particularly trucks, that will be generated when coming and going from the site.

Secondly, Scarborough, along with it's stunning surrounding villages and countryside, are reliant on tourism. This blot on our coastal landscape would ruin it for both locals and visitors alike.
