Subject: New comments for application NY/2025/0030/ENV
Date: 17 April 2025 21:47:36

New comments have been received for application NY/2025/0030/ENV from Mrs Helen Hinchliffe.

Comments:

We are strongly opposed to fracking in Scarborough due to the damage to the environment and the lack of infrastructure which is not set up for this. I believe this project has already affected reducing house prices in the area. Fracking will not only affect Burniston and Scalby it will affect all Scarborough area and must be stopped from causing damage to the wildlife and humans in this area. I have a horse locally and do not want fracking pollution to affect their health. This fracking project needs to be stopped now.
