**Categories:** ■

New comments have been received for application NY/2025/0030/ENV from Ms Yvonne Davis.

Comments:

I have already put in an objection but a thought struck me about air pollution from this rig, as we can get gusts of winds in excess of 70 miles per hour how will Europa contain particules of dust and chemicals from blowing in the air and polluting this area and those from miles around and which we would be breathing in?
