Subject: New comments for application NY/2025/0030/ENV
Date: 17 April 2025 22:22:32

New comments have been received for application NY/2025/0030/ENV from Mr Ian Robinson.

Comments:

I grew up in Cloughton and my parents now live in Burniston. I want to add my voice to the objections to the fracking application.

This stretch of coastline is very beautiful and to damage it through fracking would be a travesty.

I currently live close to the Cairngorm national park, and have lived around the Southern Alps in New Zealand. The North Yorkshire coast is in the same league as these areas. I meet people all the time who have visited the area and come away stunned by its beauty. Perhaps there is a tendency for us to underappreciate this?

We need as a society to urgently choose to stop burning fossil fuels and to invest in clean energy.

It seems entirely unrealistic to expect this project to not have massive impacts on the area.
