Subject: New comments for application NY/2025/0030/ENV

Categories: ■

New comments have been received for application NY/2025/0030/ENV from Miss Gillian Carter.

Comments:

This is too close to our communities and will cause significant distress to many residents. There will be no benefit to the local community, it will only damage our precious countryside and impact the local wildlife. Scalby Road is already an incredibly busy and noisy main road. The increased heavy goods traffic will make it unbearable and significantly more dangerous, particularly when parents and children are making their way to and from the primary schools.
