I object to the idea that “ fracking “ is to be allowed in Burniston

The danger to wildlife, as well as humans via the water supply is a major concern.

The environmental impact on the area, which includes 3 schools is extremely significant.

24 hour traffic congestion in a overwhelmed vehicle area already will obviously affect holiday travel.

Why spoil such a magnificent area for profit?

I understand the need to find alternative fuel sources, however being an Island I fail to understand why wave power is not being developed further.

The risks are far too great for this type of energy production.

Yours sincerely

Debbie Austin
