Subject: New comments for application NY/2025/0030/ENV

Categories: ■

New comments have been received for application NY/2025/0030/ENV from Mr John Crawford .

Comments:

The science is unanimous with regard to the dangers of greenhouse gases adversely affecting our climate/environment, by producing more of the same we find ourselves sawing the branch on the side which supports us.

It will be the next generation that will suffer the consequences of our inaction
