**Subject:** New comments for application NY/2025/0030/ENV  
**Date:** 09 September 2025 21:09:27

---

New comments have been received for application NY/2025/0030/ENV from Mr Jeremy Benson.

Comments:

I am writing to formally express my opposition to any hydraulic fracturing ("fracking") activities occurring beneath my property, located at [Your Full Address].

As a homeowner, I have serious concerns about the potential environmental and health risks associated with fracking, including groundwater contamination, air pollution, and the possibility of increased seismic activity. I am especially concerned about the long-term effects these operations could have on my family's well-being, property value, and quality of life.

Please consider this letter as a clear and unequivocal statement that I do not consent to fracking or any related drilling or extraction activity beneath my home or land. I request that my property be excluded from any current or future fracking projects, leases, or unitizations involving subsurface mineral rights.

I also ask that you provide written confirmation that my property will not be included in any such operations now or in the future.

Thank you for your attention to this matter. I trust that my rights as a property owner will be respected.

Sincerely,  
Jeremy C Benson
