Subject: New comments for application NY/2025/0030/ENV

New comments have been received for application NY/2025/0030/ENV from Mrs Debra Clapham.

Comments:

Scarborough's recent history shows that the coastline is fragile. The Holbeck Hall Hotel literally fell into the sea, having been sitting pretty a long way from the cliff. Surely we should be fearful of a repetition along the coastline?

Health and welfare of residents, especially children, is being overlooked.

I'm writing my objection knowing that what will prevail is not commonsense but the power of money and that whoever lines pockets the best, will win.

There are NO winners, just victims.

Please accept this as a very strong objection.
