**Subject:** New comments for application NY/2025/0030/ENV  
**Date:** 06 October 2025 16:25:24

---

New comments have been received for application NY/2025/0030/ENV from Ms Yvonne Davis.

Comments:

I object to the fracking drill being located so close to residences, schools, holiday sites etc. the fact that Europa suddenly remembered way after making application that there were a few solutions missing from their list ie Sodium Hydroxide, Bentonite, Soda Ash, M.I. Water (drilling fluid additive) and of course Water!! the base component, if they forget to include them to begin with what else are they suddenly going to remember. It is in the wrong place and will affect everyone in the nearby villages plus those further afield. Noise from the rig from increased heavy traffic causing air pollution. I object strongly
