Subject: New comments for application NY/2025/0030/ENV
Date: 30 November 2025 08:23:46

New comments have been received for application NY/2025/0030/ENV from Mrs N Hewitt.

Comments:

This form of energy extraction is dangerous, and still constitutes fracking.

This is not climate leadership, you must:

Close the loopholes that allow fossil fuel companies to exploit technicalities, including Burniston.

Commit to a just transition that invests in renewable energy, communityowned projects, and sustainable rural economies.

Be a trailblazer in your energy and environmental decisions not a chemtrail/water polluting/habitat endangering/short term money grabbing outfit. Please. You owe it to your residents. Do not let this happen in your watch.

Thank you.
