Subject: New comments for application NY/2025/0030/ENV
Date: 30 November 2025 08:25:08

New comments have been received for application NY/2025/0030/ENV from Mr Glyn Challinor.

Comments:

I object to the word described on the application this is an attempt to disguise what in the real world in is known as fracking .

It is a blatant attempt to confuse the public

I object to this application for (mainly) the following reasons- pollution to air, land, river or stream courses, aquifers, loss of habitat for wildlife , health problems for residents, heavy traffic noise and pollution, devalue to farmland or nearby housing and the requirement for vast amounts of water use.
