Subject: New comments for application NY/2025/0030/ENV
Date: 01 December 2025 10:33:46

New comments have been received for application NY/2025/0030/ENV from mr Sheila Freeman.

Comments:

This is just fracking by another name. All the arguments against it have been made and fracking stopped in this country. So why does a company think it can sneak past the banning with a slightly different process. It is not just about fracking - there should be no new oil and gas fields opened if we are ever going to slow climate change.
