I am writing to ask for the decision for this planning application to be deferred for the reasons listed below

1 Councillor Crane is still awaiting guidance from the government on upcoming policy and legal changes that may impact the decision

2 the government has made commitment to permanently ban all fracking which is expected to be confirmed in forth coming energy independence bill in this Spring 2026.

3 The draft National Planning Policy Framework (NPPF) is currently under consultation until only March 10, 2026, which contains significant implications for the proposed fracking operations—specifically, the proposed change to “remove the weight given to mineral extraction benefits”. These changes directly impact the viability of EOG's application, which heavily relies on the current policy.

Thank you
