Subject: New comments for application NY/2025/0030/ENV
Date: 24 March 2026 08:36:40

New comments have been received for application NY/2025/0030/ENV from Mrs Christine White.

Comments:

Have the planning committee visited our extremely fragile cliffs and seen the landslips near Burniston and the one in North Bay? Has there been any research in potential seismic damage from underground vibrations? When the lorries did a seismic survey in Staintondale and Ravenscar stone walls collapsed and a barn wall cracked. If you pass the application will Europa be held responsible for any damage that can be proved to have been caused by their activity?
