Subject: Oatlands Junior School - Start on Site

Dear Joan,

I am writing in reference to the planning application 'C6/79/687/M/CMA' for a 2no. classroom extension at Oatlands Junior School in Harrogate, to give written notification the client will be starting works on site from the 10th December 2018.

The client acknowledges the application to discharge conditions is still under review, however, in order to make a meaningful start, the site setup and enabling works need to commence from this date.

Please give me a call if you wish to discuss or require any additional information.

Kind regards

Richard Berry RIBA
